Parliamentary Papers
UK Parliamentary Papers (formerly known as the House of Commons Parliamentary Papers – HCPP) are the working documents of the British Government, encompassing all areas of social, political, economic and foreign policy, showing how issues were explored and legislation was formed. UK Parliamentary Papers are vital to the historical record of Britain, its former Colonies, and the wider world.

Parliamentary Papers for the period 1801 – 1920 are bound as sessional papers or sessional sets. Volumes for each Parliamentary session are identified by Roman numerals and referred to according to a continuous pencilled page number. A reference to a particular paper in an index or bibliography might read e.g. Reports and communications on vagrancy, 1847-48, Liii, 235.

See also Hansard by Century.

Material to 1923 is available on microfiche. Location: Microform Room Cabinets 30 – 32, 36 –37.

**Griffith’s Valuation**

The survey was conducted from 1848 – 1864. It was published in 1864 so people may have emigrated in the meantime.

It is the first full scale evaluation of property in Ireland including the north.

The purpose was to have a tax (rate on land owned). It was paid by the landlord or the leaser. The only people paying are those who own land; therefore not all people show up on the valuation.

Griffith’s Valuation is online on [Ask about Ireland](http://askaboutireland.ie). Online searching is possible on:

- Family name (searches all names): provides results with details of the individual, a link to a copy of the original Griffith’s Valuation page entry and a link to the Valuation Map on which the land plot was located.
- Place name: This gives details on the area and a list of its occupants, the Griffiths Valuation Map and a current Google Map.
- Historical spelling is used.

On the microfiche the following notations may be viewed:

- G: Griffith’s Valuation
- T: Tithe Applotment
