HOW TO SEARCH FOR MISSING CONTENT USING THE WAYBACK MACHINE

1. Visit the Internet Archives Wayback Machine @ https://web.archive.org/

2. Search by typing or pasting a URL, even if its broken into the Browse History box.

3. Use the timeline at the top of the page to pick a year

4. Dates with circles contain an archive of that web-page, the size and color represents how many time it was crawled. Click on a circle to view the archived page.

5. To see how a web-page has evolved go to the Changes button above the time line. Select 2 URLs, click the Compare button and they will be displayed side-by-side with changes highlighted in Blue and Yellow.

6. You can also reduce landing on 404 errors by using the Chrome plugin for the Wayback Machine. It can detect up to 15 different error messages and checks to see if an archived version is available.
